Our farm operation has several areas in which our employees may be asked to help. We attend farmer's markets on the weekend and have an on-farm market, so customer service and talking with customers is important. Additionally setting up, tearing down, and maintaining product inventory at the market and on farm market. The days before our markets we need employees to assist with basketing and crating items for market.

Our CSA program requires employees to build customer shares according to a list, like a "Click List" but with no scanner. In this position for preparing shares, you will have limited customer interaction but will need to be highly attentive to correctly prepare and pack produce to ensure accuracy and damage free produce.

We also have a commercial Kitchen at our operation, cooking baked goods and fresh ready to eat items, plus we are looking to expand in this area this season, so there will be several new items. You will have some interaction with customers, but this area will focus on preparing, baking, packaging, and labeling products. Stocking those products within the farm market and crating products that will go to farmers markets.
